

Aurora Faure Ragani

Current Position

PhD Candidate at the Mathematical Institute (MI) and Institute of Marine and Atmospheric research Utrecht (IMAU) - Utrecht University

Utrecht University (March 2025 - present)

Research on resilience optimisation of spatially extended tipping-prone systems.

Education

MSc in Mathematical Sciences (Applied Track), cum laude

Utrecht University (February 2023 - December 2024)

BSc in Mathematics - Grade: 100/100

Università degli Studi di Milano (September 2019 - December 2022)

Conference/Workshop Contributions

The Mathematics of Climate Tipping Points and their Impacts, International Centre for Mathematical Sciences - Edinburgh (March 2025)

Poster presentation.

Modelling Diffusive Systems 2026: Theory & Biological Applications, Erwin Schrödinger

International Institute for Mathematics and Physics - Vienna (January 2026)

Poster presentation.

SIAM Conference on Nonlinear Waves and Coherent Structures (NWCS26), Society for Industrial and Applied Mathematics (May 2026)

Contributed talk: *"Resilience Optimisation of Tipping-Prone Systems Through Spatial Heterogeneities."*

Teaching Experience (Tutorial Instructor)

Utrecht University

- **Python and R** (BSc course), 2025
- **Programming for Mathematics** (BSc course), 2025–2026
- **Ordinary Differential Equations** (BSc course), 2026

Responsibilities include leading tutorial sessions, guiding students through problem-solving exercises, and supporting computational assignments.
